* Original program under Title XV of the Social Security Act commenced January 1, 1955 provided unemployment insurance for Federal civilian employees. The Ex-Servicemen's Unemployment Act of 1958 was amended to provide permanent unemployment insurance for discharges from the armed forces for weeks of unemployment beginning after October 27, 1958.

** Whenever a claimant is entitled to benefits under more than one of these programs (State UI and/or Federal UCFE, and UCX), the charge for benefits paid to him is apportioned among the respective Funds.

STATISTICAL DIGEST 1971

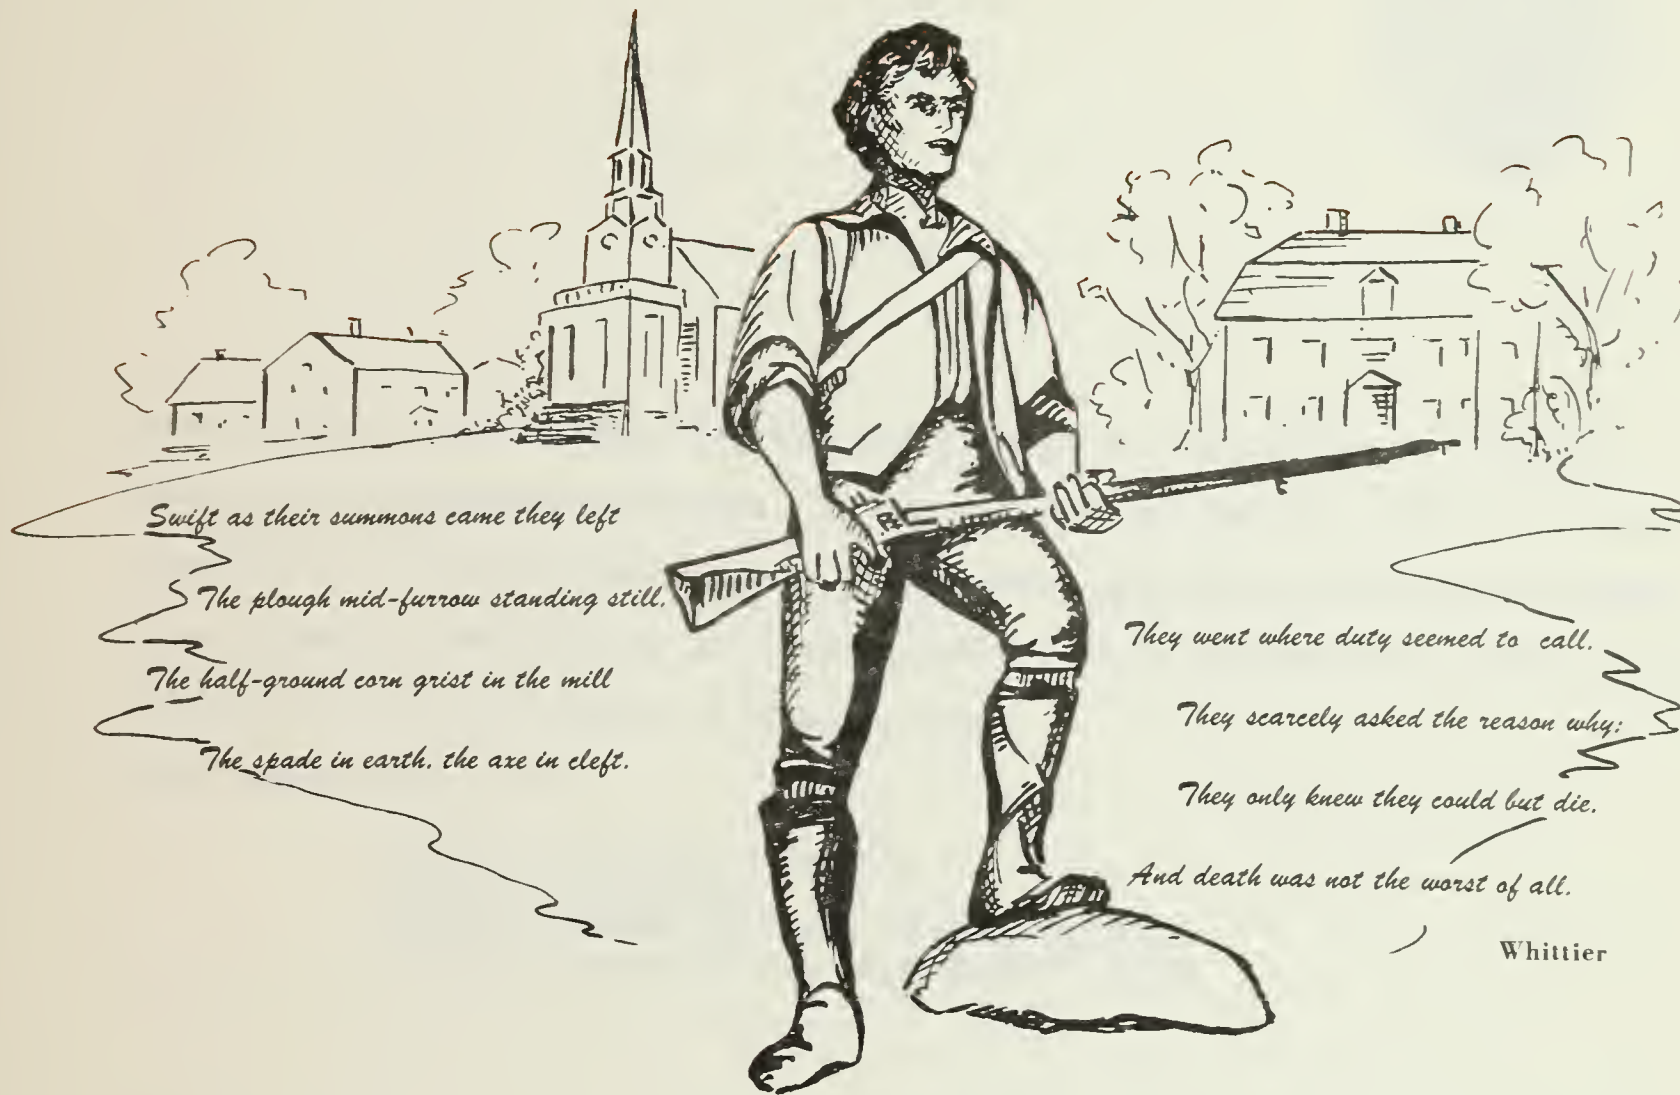

THE COMMONWEALTH OF MASSACHUSETTS
DIVISION OF EMPLOYMENT SECURITY

Governor

Comptroller

Director

11-1

Swift as their summons came they left

The plough mid-furrow standing still.

The half-ground corn grist in the mill

The spade in earth, the axe in cleft.

They went where duty seemed to call.

They scarcely asked the reason why;

They only knew they could but die.

And death was not the worst of all.

Whittier

LEXINGTON 1775

The Statistical Digest provides data that are collected in local offices in connection with claims and employment activities. It also provides information collected in various departments of the Administrative Office on employment, employer contributions and wages, on the financial transactions of the Unemployment Compensation Fund and on benefit payments. Copies of this report are available without charge.

* The Computer Reporting Systems was revised for Fiscal 1971 and a new system called ESARS (Employment Security Automated Reporting System) was initiated. The purpose of ESARS is to provide a reporting medium based upon a count of individuals served, rather than the number of transactions, as had been the custom previously. An individual may have several services provided in more than one office, thus, state totals will not necessarily equal the sum of office totals.

** Agricultural Job Referrals are counted as individuals or as "groups" of individuals. Therefore the number of Agricultural Job Referrals will not be equal to the actual number of individuals referred.

* The Computer Reporting System was revised for Fiscal 1971 and a new system called ESARS (Employment Security Automated Reporting System) was initiated. The purpose of ESARS is to provide a reporting medium based upon a count of individuals served, rather than the number of transactions, as had been the custom previously. An individual may have several services provided in more than one office, thus, state totals will not necessarily equal the sum of office totals.

** Agricultural Job Placements are counted as individuals or as "groups" of individuals. Therefore the number of Agricultural Job Placements will not be equal to the actual number of individuals placed.

* The Computer Reporting System was revised for Fiscal 1971 and a new system called ESARS (Employment Security Automated Reporting System) was initiated. The purpose of ESARS is to provide a reporting medium based upon a count of individuals served, rather than the number of transactions, as had been the custom previously. An individual may have several services provided in more than one office, thus, state totals will not necessarily equal the sum of office totals.
